Response to Amendment

1. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over French et al (5,264,145).

Response to Arguments

2. Applicant's arguments filed 2-10-05 have been fully considered but they are not persuasive.

Applicant argues that French et al do not teach bar composition having less than about 15% of water.

The examiner contends and respectfully disagrees because French et al specifically teach at col. 9, lines 45-49 that the water content may comprise from about 15% of water.

In the case where the claimed ranges "overlap or lie inside ranges disclosed by the prior art" a prima facie case of obviousness exists. In re Wertheim, 541 F.2d 257, 191 USPQ 90 (CCPA 1976); In re Woodruff, 919 F.2d 1575, 16 USPQ2d 1934 (Fed.Cir. 1990).

Applicant further argues that the prior art of record, French et al, do not teach or suggest the later index and mildness as shown in table I of the specification.

The examiner contends and respectfully maintains that absent a showing of unexpected results French et al teach the claimed bar compositions. Specifically, the results suggested by applicant in Table I do not overcome the prima facie case of obviousness. First, the compositions provided in the table are not commensurate in scope with the claimed invention. Applicant's compositions are drawn to much broader

classes of surfactants, emollients, hydrocarbons (see claim 1) and the examples state more specific components. Secondly, applicant should compare the claims of the present application against the working examples of French et al to establish unexpected results. Accordingly, the claims are considered obvious in view of the teachings of French et al and absent a showing of unexpected results commensurate in scope with the claimed invention.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
